

REACH Declaration of Conformity

Manufacturer: **COGELEC SA**
Address: **370, rue de Maunit - 85290 - Mortagne sur Sèvre – France**

The REACH 1907/2006/CE regulation aims to secure the manufacture and use of chemical substances in European industry. It makes it possible to carry out an inventory, evaluate and control the import and marketing of these substances.

COGELEC recognises its responsibilities with regard to the environment and its customers.

We have reviewed our processes and the storage of our data in order to ensure that we are able to fulfil the different responsibilities related to this regulation.

As a manufacturer, we respond to our customers' requirements by supplying products in accordance with the established specifications. However, it is incumbent upon our suppliers to detail precisely the specifications of substances of a chemical nature by guaranteeing that no substance included in the SVCH list is contained at more than 0.1%.

Consequently, COGELEC must be considered to be a downstream user. This REACH declaration remains the responsibility of our suppliers of raw materials.

We hereby confirm that COGELEC is committed to being able to determine the REACH status of its products by storing all of its suppliers' data.
